TO Northline Fiber Billing Disputes	ACCOUNT NF-4471-88028802	PREPARED AT REVISION 13 18 SEP 2026, 14:06 UTC	CHANNEL EMAIL 1 recipient
---	-------------------------------------	--	---------------------------------

MODEL DRAFTED THIS WORDING

KERNEL BINDS IT ON YOUR APPROVAL

SUBJECT: Dispute of invoice dated 18 September 2026 – account NF-4471-8802

On 15 May 2026 I cancelled account NF-4471-8802, effective 31 May 2026.¹

Northline Fiber acknowledged the cancellation in writing on 16 May 2026.²

The invoice dated 18 September 2026 covers 1 June 2026 to 30 June 2026, a period entirely after the effective termination date.³

I am therefore disputing the charge of USD 186.00 in full.⁴

Please confirm in writing that the balance on NF-4471-8802 is USD 0.00.^{your own words}

ADD YOUR OWN WORDS — UNGROUNDED, AND MARKED AS SUCH

Anything you add here is attributed to you, not to the record.

WHAT APPROVING DOES

Sends one email to one recipient. No other party is contacted.

Records ACTION_APPROVED and ACTION_EXECUTED against revision 13.

Does not change the canonical belief. The dispute stays open until it is answered.

☐ I have read the draft and the evidence each sentence rests on.

☐ I authorise sending this, as written, at revision 13.

APPROVE & SEND

Both boxes required. No pre-checked consent.

DRAFT FINGERPRINT

RECORD POLICY

Append-only evidence

ENFORCED · NOT CONFIGURABLE

Nothing you or a counterparty said is ever removed.

Model output requires your approval

ENFORCED · NOT CONFIGURABLE

No draft leaves this system unapproved.

Retraction filter

ACTIVE

Retracted sources are excluded from evaluation and stay visible in history.

YOUR DATA

BUILD AN AUDIT PACKAGE

CLOSE THIS ACCOUNT

Closing the account deletes your bytes and indexes. Because the record is append-only, deletion is the only way anything leaves it, and it cannot be undone.

Audit export

DETERMINISTIC · NO MODEL INVOLVED

An audit package is a signed, self-verifying copy of what your record holds: the raw bytes, every span and claim with its scores, every belief version including superseded ones, and the docket that produced them.

SCOPE

This context — The Move

Single case — NF-4471-8802

Everything in my record

CONTENTS

☐ Artifacts — raw bytes and hashes	4 records
☐ Evidence — spans and confidences	7 records
☐ Claims — actor assertions with authority	6 records
☐ Beliefs — all versions, including superseded	3 records, 7 versions
☐ Commitments — arithmetic and fulfilments	3 records
☐ Docket — append-only event stream	13 entries
☐ State proofs — rendered per case revision	2 documents

Format: JSON records + one PDF proof per case revision

GENERATE PACKAGE

MANIFEST

Choose a scope and contents, then generate. The manifest is hashed so a recipient can verify nothing was altered after export.
